

# Behavioral Health Services Resource Guide

## Columbia & Greene County, NY

Published by The Columbia County Department  
of Human Services

Updated December 2024

This directory provides a comprehensive overview of Behavioral Health programs, services, and resources designed to address the complex needs of individuals with Mental Health and Substance Use Disorders in Columbia and Greene Counties. This is by no means a complete listing of all organizations within the counties.

The listing of an organization in this directory does not imply an endorsement of its purpose or quality, nor does omission signify disapproval.

For a list of all providers in New York, please visit:

**Services Provided:**

Group facilitators are Certified Anger Management Specialists through the National Anger Management Association. The National Anger Management Association (NAMA) is the international professional association (represented in 26 countries) for the fields of anger management, crisis intervention and domestic violence.

We are committed and passionate about working with people in our community to develop healthy ways to manage anger and to build awareness for how destructive anger can impact lives.

As a Certified Anger Management Specialist, we have been trained and certified to offer anger management groups, classes and individual sessions. Through the use of a weekly anger log and workbook, participants learn to take responsibility for their anger reactions. This makes an anger management program a wonderful alternative to punitive incarcerations and fines (which can be harmful to families and communities).

Please consider us for any court mandated anger management referrals. The program is evidenced based and court certified. We would be glad to send you further materials on our 12 week program at your request. We can also be found on the Specialist Directory of the National Anger Management Association website at [www.namass.org](http://www.namass.org).

### **Services provided:**

## **Child Protective Services**

Child Protective Services has tags '#Columbia County, #Children's services, #Family Services, #CPS'

Child Protective Services (CPS) is responsible to receive and investigate reports of child abuse and neglect, and to provide, arrange for and monitor services for children and their families. On-call CPS workers perform this function whenever the Agency is closed. The investigation of a report is a fact-finding process that includes interviewing, observing, and information gathering. Its purpose is to protect the child, determine the validity of the allegations, evaluate any condition of abuse or maltreatment that was not reported and determine the services necessary to ensure the safety of the child and reduce the degree of future risk to the child. The investigation includes an evaluation of all children, caregiving adults and the home of the family.

## **Preventive Services**

Preventative Services has tags '#Columbia County, #Children's services, #Family Services, #CPS'

This Unit provides supportive and rehabilitative services to children, youth and families. The goal is preventing the need for foster care placement; enabling a child who is currently in foster care to return home sooner and reducing the risk that a child who has been discharged will return to foster care. Referrals come to the Preventive Unit from Child Protective Services as well as individuals or outside community agencies such as schools and mental health agencies and for families to avoid further involvement with the juvenile justice system. Services are often provided in conjunction with voluntary agencies and other community partners. These agencies provide intensive home-based case management services for families at risk of having their children placed in foster care and provide coordination of services to children and youth with behavioral concerns that put them at risk of out of home placement.

## **Foster Care Services**

Foster Care Services has tags '#Columbia County, #Family Services, #Children's service, #foster care'

Foster Care Services works to provide care of a child when they are unable to remain in their home or with their family in a certified foster home or a certified group home, childcare institution, health care facility or any combination thereof. To be in Foster Care, a child's care and custody or guardianship and custody has been transferred to the Commissioner of the Department pursuant to Article 3 (Juvenile Delinquent), Article 7 (Person in Need of Supervision) or Article 10 (Abuse and Neglect) of the Family Court Act. Occasionally, a child comes into care on a voluntary basis. This Unit helps to provide services to families whose children are in foster care so they can be reunited with their families. When that is not possible, the Unit works to achieve permanency for children by identifying other long-term adoptive and family resources.

## **Adult Protective Services**

Adult Protective Services has tags '#Columbia County, #Social Determinants of health, #case management'

This Unit assists in providing necessary services to adults by working together with agencies dealing with aging, medical and mental health needs, legal issues and law enforcement. Services include investigation and assessment of the adults needs and risk of harm, counseling for the victimized adult and their family, advocacy and case management services including arranging for medical and mental health assessments, applying for benefits and assuring coordinated delivery services, financial management services, including serving as representative payee, homemaker and housekeeper chore services. Legal interventions may include securing access orders, involuntary protective service orders and orders of protection and long-term legal interventions, such as pursuing guardianship.

## **The Homeless Unit**

The Homeless Unit has tags '#Columbia County, #homeless services, #emergency housing, housing, #Temporary assistance'

Determines eligibility for temporary housing assistance. Individuals and families that are homeless may apply for Emergency Assistance for homelessness and if eligible may be provided with temporary housing accommodations. There are specific eligibility guidelines for this program. Individuals and families in need of homeless housing services will receive case management services through the Adult Protective Services Unit and appropriate monitoring and referrals to community services will be provided. Referrals will be made to agencies to assist with finding affordable long-term housing solutions for those experiencing housing insecurity.

## **SNAP (Supplemental Nutrition Assistance Program)**

SNAP (Supplemental Nutrition Assistance Program) has tags (#Columbia County, #Food Stamps, #SNAP, #Food security, #Financial benefits, #Social determinants of health'

Helps low-income working people, seniors, the disabled and others supplement their food needs with monthly benefits that are used to purchase food at authorized retail food stores.

## **HEAP (Home Energy Assistance Program)**

HEAP (Home Energy Assistance Program) has tags '#Columbia County, #HEAP, #Utilities assistance, #Financial Benefits'

A federally funded program that assists low-income New Yorkers with the cost of heating their homes. HEAP also offers an emergency benefit, such as furnace repair/replacement, as well as cleaning and tuning for those eligible households in a heat or heat related energy emergency.

## **Temporary Assistance (TA)**

Temporary Assistance (TA) has tags '#Columbia County, #Financial Benefits, #Financial Assistance, #rent assistance, #Temporary assistance'

A form of temporary financial assistance available for children, families, and single individuals that are in need. This program may be able to assist you if you are unable to work, cannot find a job or your income does not meet your basic needs. Temporary Assistance may be able to help pay for expenses such as food, clothing, rent/mortgage, heat, and utilities.

## **Community Medicaid**

Community Medicaid has tags '#Columbia County, #Medicaid, #apply for medicaid, #Health Insurance, #Managed Care'

Health insurance based on income, resources, and other eligibility requirements for low-income New York State residents who do not have health insurance or cannot afford health insurance. Community Medicaid provides coverage for many different types of medical care except for

Nursing Home and Long-Term Care Coverage.

## **Chronic Care Medicaid**

Chronic Care Medicaid has tags '#Columbia County, #Medicaid, #health insurance'

Insurance coverage for individuals that do not have health insurance and are in a Nursing Home or a Long-Term Care Program. Chronic Care Medicaid eligibility is based on income, resource, and other eligibility requirements.

## **The Resource/Fraud Department**

The Resource/Fraud Department has tags '#Columbia County, #Fraud'

Responsible for a variety of tasks such as calculating over-payments and investigating welfare fraud allegations. This department also handles the request for assistance with Burials for the indigent.

## **The Child Support Unit**

The Child Support Unit has tags '#Columbia County, #Family Services'

Provides custodial parents with assistance in obtaining financial support and medical insurance coverage for their children by locating parents, establishing paternity, establishing support orders, and collecting and distributing child support payments.

## **Columbia County Drug Court**

**Phone:** 518-267-3164

**Contact:** Gwendolyn Avent

**Email:** [gavent@nycourts.gov](mailto:gavent@nycourts.gov)

### **Services Provided:**

Defendants facing felony or misdemeanor charges where drug addiction is a component of their offense may be eligible to participate in a criminal DTC program. Those who successfully complete their drug treatment court program may have their charges dismissed or reduced or may receive a reduction in their sentence. In October 2009, a new law, Criminal Procedure Law, Article 216: Judicial Diversion Program for Certain Felony Offenders, authorized a court to divert eligible felony offenders into substance abuse treatment programs. Young Adult Drug Treatment Courts are operational in several of the criminal courts. These courts target defendants in the 18 - to 24-year-old population.

## **Juvenile Drug Treatment Courts**

Participants in the juvenile drug treatment courts (JDTC) are facing either Juvenile Delinquency (JD) or Person In Need of Supervision (PINS) petitions in the Family Court where substance abuse forms some component of the pending petition. Successful participation in the juvenile drug treatment court program generally results in the dismissal of the pending petition.

**Email:** [gvicenti@columbiaopportunities.org](mailto:gvicenti@columbiaopportunities.org)

**Objective:** Assist Columbia County residents to make energy efficiency improvements to their homes.

### Weatherization Assistance Program

This program helps income-eligible households by reducing their energy costs and improving the safety of their homes through the installation of energy efficiency measures. Both single-family and multi-family buildings may be weatherized. Services are available to homeowners, renters and landlords with income eligible tenants. Income eligibility guidelines must be met.

### EmPower New York Program

This program also assists households with a limited income to take control of their energy use. COI will evaluate the home and provide energy efficiency services such as high-efficiency lighting, refrigerator replacement, and insulation. This program is also available to people who may have received our regular weatherization services in the past.

### NYSERDA Home Performance with Energy Star Program

This program offers valuable financial cash back incentives, grants, and low interest financing that help make energy efficiency improvements affordable for most people. COI can work with homeowners with an annual gross income up to \$284,000. Free energy audits are available if the annual household income is less than \$142,000.

**Hours:** Monday – Friday, 8 am – 4 pm.

**How to apply for services:** Contact the program for applications.

**Website:** <https://ww2.nycourts.gov/courts/3jd/columbia/3JD-Hudson%20City%20Court.shtml>

**Services Provided:**

Problem-solving courts exist to improve public safety and the lives of treatment court participants living with mental illness or disease and co-occurring substance use disorders. The Problem-solving court accomplishes this goal through the integration of intensive supervision, mental health services, alcohol and drug treatment, alcohol and drug testing, and connections to community service providers that can assist with housing, transportation, and various other benefits.

**COURT PROGRAM DESCRIPTION**

The program is designed to help address mental health issues, break the pattern of substance use/dependency (if present in a dual diagnosis), and assist with re-entry into the community. Treatment Court is a VOLUNTARY program for its participants but requires approval of the prosecutor, defense counsel, the Judge and the court's treatment team. While there are certain things that you must complete, your ability to progress through the program and graduate will depend greatly upon your actions. If you miss court related appointments, ignore court requirements (such as making all mental health appointments and following recommended treatment plans), fail to participate in the treatment process or incur new, additional charges, it can have an impact on your participation in the program and it can impact your advancement through the program. This could delay your graduation and/or completion of the program and in more serious cases may result in termination from the program. The Mental Health Treatment Court Program has no specific length and may be longer or shorter for each participant based on their individual circumstances. Each treatment plan is tailored to meet the needs of each individual. Treatment may consist of inpatient, residential, and outpatient treatment, or a combination of any of the above through our program, and/or other available community resources.

### Services Provided:

Osborne's Court Advocacy Services (CAS) staff work with court-appointed defense attorneys to design and propose individualized release and sentencing plans for clients facing a conviction and a sentence that might include a term of incarceration. Our Mitigation Specialists use a clinical approach to conduct pre-pleading and pre-sentencing investigations of client backgrounds to ascertain mitigating circumstances, and provide in-depth assessments to the court to advocate for appropriate alternative sentencing options. The individualized reports we prepare recommend plans that provide clients with the tools and resources to build secure and stable lives, including substance use disorder treatment, mental health counseling, education and job training skills, parenting classes and housing options. In addition, our Mitigation Specialists provide continued support and monitoring as clients work to complete the conditions of their plea.

### How to access CAS Services

CAS assistance is free to all court-appointed counsel in assigned cases. It is also free to retain counsel if proof of a client's indigence is established. Program Features

- Intake and assessment of participants
- Advocacy, including mitigation reports and court appearances
- Service plan development and case management
- Referrals to education, training, healthcare, and other services based on the individual's needs
- Technical assistance to defense attorneys, judges, ADAs, and the courts

- Regular updates on client progress to the court and defense attorney

### Services Provided:

#### Homeless & Housing Services Program

The Homeless & Housing Services Program provides case management using the Family Critical Time Intervention Model, (FCTI). Services last 12 months and are divided into three specific phases. Homeless & Housing Services Program staff will focus on just a few goal areas that promote a successful move from Homelessness to permanent housing. The following is a list of some of the FREE services that the Program can help you with.

#### Phase 1: "Transition to Community" (Months 1-4)

- First step is that you will be referred by Columbia County DSS.
- Can help you find an apartment and meet with you to view apartments.
- Can help you get furniture and household items through Columbia County DSS.
- Can help you find a job and find childcare.
- Can help you apply for SSI/SSD if eligible.

#### Phase 2: "Try Out Phase" (Months 5-8)

- Can link you with community services you feel would be helpful such as parenting, employment, financial, trauma, and substance abuse resources.
- Help you link up with counselor services and/or medical services.
- Your FCTI worker will check in on services you receive and make sure they are working for you.

### **Phase 3: “Transfer of Care” (Months 9-12)**

- Your worker makes sure these supports will be helpful to you and will continue to assist you in meeting your goals.
- Helps you stay connected to the supports that you have established.
- INDEPENDENCE!

### **Columbia-Greene Supported Housing**

Provides HUD-funded, scattered site, permanent supportive housing to 7 chronically homeless families and individuals who have a documented substance use disorder or serious and persistent mental illness diagnosis. Although many participants have maintained their income through employment and SSI/SSDI, they continue to be well below the low income guidelines. Households range from ½ bedroom units based on individuals who are eligible through HUD standards. Project participants continue to partner with their care manager monthly to review and update their service plan. Participants also attend bimonthly meetings where the group works on recovery, financial budgeting and parenting.

## Department for Aging

Department for Aging has tags '#Greene County, #Services for seniors,#legal assistance,#health insurance,#in-home care, #Food Security Services, #case management, #transportation'

The department will assist adults, age 60 and older, in maintaining and/or improving their social, economic, health, safety and nutritional status by providing a network of supportive services. Our goal is to help seniors maintain their dignity and independence within their communities.

We provide information and assistance, legal services, caregiver support, energy assistance, health insurance counseling, and transportation services. Long Term Care Services including case management, homemaker/personal care, respite services and PERS units provide the necessary support to homebound individuals. Through the nutrition program, seniors enjoy a hot, nutritious meal at either a senior service center or as a home delivered meal for those homebound. In addition, we assist seniors looking to remain active by volunteering their time.

An attorney is available at the Department of Human Services in Catskill on Thursday mornings by appointment only. For more information, contact: 518-719-3555

## Youth Bureau

Youth Bureau has tags '#Greene County, #Children's services, #Services for families, #legal assistance'

### Fare Information

Each route is \$3.00, one-way, that includes a free daily shuttle pass. The Catskill shuttle is \$2.00 for the entire day. Please have exact change as the driver DOES NOT have change available. Veterans Ride for Free with proper id. Transfers are free. Children, 5 and under, are free.

### Pass Information

Senior Pass - Seniors (60 and over) are eligible for their fare to be fully subsidized by filling out a registration form or by contacting the Greene County Department of Human Services at (518) 719-3555.

Prepaid Pass - We offer the option of paying for a fare ahead of time through the purchase of prepaid passes. We have three ways that you can purchase them -

### How To Purchase:

On the bus - You can purchase a small amount of passes. The money for purchase of the pass goes into the fare box. The driver is NOT able to give change. This has been convenient for some that want to pay for a round trip on a route ahead of time.

In person - You can stop by the office at 311 West Bridge Street in Catskill. We just ask that you

stop and sign in with the receptionist.

By mail - You can mail a money order or check to GCT, 311 West Bridge Street, Catskill, NY 12414. For personal checks, the passes will be sent out once the check is cleared.

Passes are \$3.00 each for the routes and \$2.00 each for the shuttle. Looking for a way to save money? If you purchase 40 or more, at one time, a 10% discount will be given. If you have any questions just give us a call at (518) 943-3625. If you are using our Route 711, try our new <https://Ride711.com> prepaid fare for an all-day pass on the Route 711 Teal bus for \$5.00.

### **Deviations**

This is a Route Deviation Service. All routes allow a passenger to use a deviation, up to  $\frac{3}{4}$  of a mile, off the main route used by those who cannot get to a scheduled stop. A reservation must be made, by contacting us at (518) 943-3625, 24 hours before the end of the business day before the ride is needed. There is an additional \$10 fee, each way, charged for this service.

### **Services Provided:**

Educate Veterans and their families about the benefits they have earned; Represent and guide Veterans in obtaining benefits and services both through the VA and other local agencies; Make Veterans an economic force in education, employment and business development.

### **Cards for Veterans**

There are presently 80 Veterans residing in local, long-term care and assisted living facilities. As we know, November has two important holidays – Veteran's Day when we thank our past military personnel for their service to our country and freedom, and Thanksgiving when we thank God for all His blessings. This month, we hope you will do both holidays and send a card to our Veterans in these facilities. Yes, it is a lot to ask but both are special, and a card would brighten their day.

### **Service Officer Representatives**

The Director and staff are accredited, caring, and knowledgeable veteran service officers; as such, they are able to guide veterans and their families in submitting claims to the Department of Veterans Affairs (VA). Greene County Veteran Service Officers will help you navigate the bureaucracy of the VA, and our services are free. We will help with gathering the information necessary to support a claim, file the claim, and track the claim through the VA system. We can also assist with filing appeals for denied claims. We strongly recommend that you make use of the services provided by County Veterans Service Officers. Our expertise can help you avoid the pitfalls and delays that missing paperwork or improperly filled out claim forms can cause.

Some of the projects that we are proud of supporting are: donating funds to purchase food for elementary students to bring home each weekend, purchasing sneakers for students in each of the Cairo-Durham school campuses, as well as providing Christmas presents for local families in need. Our club does several road cleanup projects a year on Route 23, as well as park beautification projects throughout the community. We donate funds to local food pantries and women's leagues, and recently purchased fluid warmers for our local EMS. Our Rotary has even supported our global community by donating an emergency shelter box to the people of Haiti, donating funds to the people of the Ukraine, and assisting in building a women's shelter in Costa Rica.

## Section 8-RUPCO Housing Choice Voucher Program

Section 8 Housing Choice Voucher has tags '#Greene County, #Housing, #affordable housing, #rent assistance'

289 Fair Street, Kingston, NY 12401

**Phone:** (845) 331-2140

**Fax:** (845) 331-6217

**Contact:** Maria Wayne; Director of Section 8 Programs

**Greene County has 329 vouchers.**

In addition to rental subsidy, RUPCO will provide one month's security. The Landlord may also receive a bonus months rent (as funds are available) for participating in the HCV (Section 8) Program.

Applicants may only apply for Section 8 when the waiting list is open. To find out if the waiting list is open, please contact our office or check our website at [www.rupco.org](http://www.rupco.org). If you apply and are selected for the waiting list, you will receive a letter from our office when your name reaches the top of the list. The demand for housing assistance often exceeds the limited resources available; therefore, long waiting periods are common. Eligibility for a housing voucher is determined by your family size your family's gross annual income from all sources. Your family's income may not exceed 50% of the county's area median income. By law, RUPCO provides assistance first to 75 percent of families in need, those families who make less than 30 percent of the county's area median income. Area median income levels are published by the federal government each year and vary by location.

## **Services Provided:**

To help make sure that insurance barriers do not keep New Yorkers from the substance use disorder and mental health care they need, New York State created the behavior health ombuds office in 2018. Shortly after the Community Health Access to Addiction and Mental Health Care Project (CHAMP) was created. CHAMP operates a statewide helpline and partners with local organizations in order to help patients, caretakers, providers, and anyone else who is facing issues accessing care because of their insurance. The services are ALWAYS FREE and ALWAYS CONFIDENTIAL, Regardless of the type of insurance, even if you have no insurance, CHAMP will help you navigate the insurance issue you are facing.

CHAMP is a joint effort between the Office of Addiction Services and Supports and the Office of Mental Health and as such has access to the resources available to both offices. CHAMP is a community focused project and was established in partnership with community-based organizations, including Community Service Society, Legal Action Center, the New York State Council for Community Behavioral Healthcare, and the Medicare Rights Center. We have partnered with nine local nonprofits throughout the state to make sure that we have a direct connection to programs and care available near you. Anyone can call our helpline. There are no requirements or qualifications.

CHAMP is here to help individuals and their families resolve issues in accessing substance use disorder and mental health services created by their health insurance or lack of insurance. We can help investigate and resolve insurance denials and advocate for you and your rights. We can help with navigating your options within your insurance network for care as well as your options if your insurance doesn't have in network coverage. We can help figure out if your insurance is following the law and assist with filing complaints with the proper government agency if they are not. CHAMP is here to answer your questions about your insurance rights. If you are unsure about if CHAMP is right for you, call and we will do our best to help.

**Website:** [https://www.fourwindshospital.com/about\\_four\\_winds/saratoga/](https://www.fourwindshospital.com/about_four_winds/saratoga/)

Services Provided:

Four Winds treats a full spectrum of psychiatric disorders, including:

- Depression and other Mood Disorders

- Anxiety Disorders
- Dual Diagnosis
- Thought Disorders
- Psychological Trauma and Abuse

Four Winds Saratoga provides a comprehensive range of mental health treatment services for children, adolescents, adults, and older adults.

Four Winds offers four levels of treatment intensity. After an initial evaluation, every patient is referred for individualized treatment at the appropriate level of care within the Four Winds continuum. Patients can access various levels of care throughout the course of their treatment.

Treatment programs include:

## Four Winds Inpatient Hospitalization

Four Winds Inpatient Hospitalization has tags ‘#regional, #columbia county, #Greene County, #Inpatient Treatment, #Mental Health Services, #youth services, #Children’s Services, #Partial hospitalization, #Psychiatry, #therapy, #substance use disorder, #addiction, #mental health services’

- Adolescent Services
  - Four Winds Saratoga is one of the leading providers of child and adolescent mental health services in the Northeast. There are two adolescent inpatient units on our campus. The Polaris unit typically serves younger adolescents and the Freshwater unit serves older adolescents. Each home-like cottage is staffed with a professional, multi-disciplinary treatment team, under the supervision of a child and adolescent psychiatrist.
  - This comprehensive program addresses adolescent psychiatric problems, including: depression, anxiety disorders, substance abuse, suicidal ideation, social isolation, and physical and sexual abuse.
  - While a broad range of emotional and behavioral difficulties are treated, each patient receives an individualized treatment plan based upon his or her needs. Treatment integrates individual, group and family therapies with a full complement of educational, expressive and recreational therapies.
  - Adolescents participate in insight-oriented individual therapy, behavioral therapy, and group therapies, as well as a range of expressive therapies. Patients attend skill-building groups where an emphasis is placed on learning positive social skills, conflict resolution and mutual respect.
  - Working with each child’s family or support system is a major focus of treatment. Families are actively involved in treatment planning, family therapy and discharge planning.
- Children Services
  - Four Winds Saratoga is one of the few psychiatric hospitals in New York State that treats children between the ages of 5-10. This unique inpatient unit is housed in a separate cottage, named Catlin, that includes its own teaching and learning center and recreational area. The Catlin unit is staffed with a professional, multidisciplinary treatment team, under the supervision of a psychiatrist.

- Treatment integrates individual, group and family therapies with a full complement of educational, expressive and recreational therapies. Families are actively involved in treatment planning, family therapy and discharge planning. While a broad range of emotional and behavioral difficulties are treated, each child receives an individualized treatment plan based upon his or her needs.
- An important part of the treatment on Catlin is “milieu therapy”. Skill building groups with children and staff encourage coping skills and socialization. Reinforcement of a positive self-image, promoting self-care skills, and responsibility and independence are integrated into the daily routine.
- **Adult & Older Adult Services**
  - Our adult inpatient hospital programs are designed to provide the highest quality of care to our patients. Comprehensive treatment is provided in a compassionate and individualized manner, taking into account the unique circumstances of each person.
  - Housed in two comfortable cottages, Hathorn and Ferndell, our program strives to accentuate a patient’s strengths. Each unit is staffed by a multi-disciplinary treatment team consisting of psychiatrists, nurse practitioners, psychologists, social workers, nursing staff, and other mental health professionals.
  - With the assistance of the treatment team, patients receive education on their diagnosis, develop an individualized treatment plan, and actively engage in skill-based groups that will help them on their road to recovery. Our goal is to assist every patient in developing self-care and coping skills that will allow them to better manage their symptoms and adapt to environmental stressors. Our therapeutic milieu, or setting, provides a safe environment in which they can practice these new skills.
  - During their course of treatment, a patient will participate in: Comprehensive Psychiatric/ diagnostic evaluation, collaborative treatment planning, individual therapy, extensive group therapy, skills training, family therapy, recreational activities and expressive therapies, and comprehensive discharge planning. Our group therapy program is individualized based upon the specific needs of each patient.
  - Our adult inpatient program is unique in that we also provide two evidence-based treatment services: Dialectical Behavioral Therapy (DBT) and Dual Diagnosis/Chemical Dependency Services.
  - Dialectical Behavioral Therapy (DBT)
    - DBT is a specialized form of Cognitive Behavioral therapy which has been shown to be highly effective in assisting patients to reduce self destructive behaviors and to assist individuals in regulating their emotions. This comprehensive program will heighten patient’s awareness to their self-destructive thoughts and behaviors and will facilitate the development of healthier methods of coping. Patients will also be assisted in looking at lifestyle changes that will reduce crisis in their lives. Individualized homework assignments focused on treatment goals will be provided as well as a comprehensive plan of how to manage symptoms and stressors outside of the hospital. Our highly-trained nursing staff provides “skills coaching” to patients, allowing them to practice these skills while on the unit so that they can generalize these skills into their daily life.
    - Patients who exhibit emotional dysregulation or self-destructive behaviors, with concurrent diagnoses such as: depression, anxiety disorders, borderline personality disorder, post traumatic stress disorder

- and self-injurious behaviors are ideal candidates for this comprehensive inpatient treatment.
- Dual Diagnosis/ Chemical Dependency
  - Adult Services recognizes the need to provide concurrent treatment for individuals struggling with both a psychiatric diagnosis and an addiction. Individualized assignments which are tailored to the patient's stage of treatment will be provided. Patients will be educated on the interaction between their psychiatric symptoms and their addiction. Specific focus will be placed on the development of a relapse prevention plan and making recommendations for continued dual diagnosis treatment to continue to promote their recovery upon discharge.

## Four Winds Partial Hospital Program

Four Winds Partial Hospitalization has tags '#regional, #columbia county, #Greene County, #outpatient Treatment, #Mental Health Services, #youth services, #Children's Services, #Partial hospitalization, #Psychiatry, #therapy, #substance use disorder, #addiction, #mental health services'

- Adolescent Partial Hospital Program (PHP)/Adult Partial Hospital Program (PHP)
  - The Four Winds Partial Hospitalization and Intensive Outpatient Programs is virtual!
  - The programs continue to provide short-term, medically supervised outpatient treatment services for adults, 18 years of age and older.
  - PHP can be an appropriate alternative to inpatient treatment, but can also be a benefit to persons transitioning from inpatient to outpatient care. The program is especially suited to individuals who may be in acute distress with symptoms of depression or psychosis, and who may exhibit disorganized or self-destructive behaviors. Adults who need a brief, comprehensive reassessment of their outpatient treatment, and/or who are in need of increased structure and support including a possible change in their medication regimen, will find this program beneficial.
  - IOP provides an opportunity for more intensive treatment than can be provided in a traditional outpatient setting. Adults who need a brief, comprehensive reassessment of their outpatient treatment, including a possible change in their medication regimen will find this program beneficial.
  - Staffed by a multi-disciplinary treatment team, these programs utilize a cognitive behavioral and psycho-educational approach. Central to the treatment is the development of coping skills to manage psychiatric symptoms and the stressors of everyday life.
  - Working closely with family/significant others is an important part of both programs. Therapists meet with the family on a regular basis, addressing significant issues, including medications. Clinical staff is available 24 hours a day for consultation with the patient and family in a crisis situation.
  - The programs provide group, individual, and family psychotherapy, individual case management and medication education. There is a focus on individualized treatment to meet the unique needs of each person entering the program.
  - Dialectical Behavioral Therapy is a Cognitive Behavioral approach utilized by the PHP and IOP programs which demonstrates a significant reduction in self-

destructive coping behaviors and suicide attempts. People focus on developing more adaptive methods of coping, concentrating on reduction of “Crisis Driven Behaviors”. Those who exhibit emotional dysregulation or self-destructive behaviors, with concurrent diagnoses such as: depression, anxiety disorders, borderline personality disorder, post traumatic stress disorder, and self injurious behaviors are ideal candidates for this treatment approach.

- Most third party payers cover treatment for the Partial Hospital Program, and Four Winds is a provider for major managed care networks as well as Blue Cross and other commercial insurance plans. Medicare and New York State Medicaid are accepted. The referring therapist is invited to participate in the treatment planning of all patients, facilitating optimum care. Discharge planning is initiated at the time of admission and continues through the course of the treatment.
- In order to expedite the admissions process, we are providing you with the PHP/IOP Admission Forms so you may download, print and fill out ahead of time. Completed documents can be faxed to: 518-581-2535.

## Medicaid Transportation

Medicaid Transportation has tags '#Regional, #Columbia County, #Greene County, #Medicaid, #medical transportation, #Transportation Services'

**Phone:** 1(855) 360-3546

**Website:** <https://www.medanswering.com/login.taf>

**Services Provided:**

Medicaid Enrollees that are eligible for Medicaid transportation may get transportation to and from most medical appointments. However not every Medicaid Enrollee is eligible for Medicaid transportation. Call Medical Answering Services (MAS) to find out if you are eligible for Medicaid transportation.

**How do I schedule Medicaid Transportation?**

You can call MAS to schedule transportation, send a fax or get a user name and password to set up Medicaid transportation for you and your family at [www.medanswering.com](http://www.medanswering.com). Additionally your medical provider or social service caseworker can contact MAS to schedule Medicaid transportation for you.

All Medicaid trips should be called in at least three (3) days in advance. All trips using public transportation should be called into MAS five (5) days in advance. If you need to go on a long distance trip, please call MAS seven (7) days in advance. Urgent or last minute trips can be requested, but please understand last minute trips requests are difficult to accommodate, especially in rural areas.

When you call to schedule a ride MAS will ask you questions so we can identify who the trip is for. Have the following information handy; Medicaid Enrollee's name, birth date and Medicaid identification number; and Current telephone number and address .

**What level of transportation will I get?**

Medicaid Enrollees are expected to go to their medical appointments the same way that they travel to other places on a daily basis. We will set up transportation for you based on your abilities and medical needs. Generally, Medicaid reimburses for personal vehicle mileage, public bus/mass transit, taxi, ambulatory, wheelchair, stretcher, non-emergency ambulance, commercial air, bus and rail transportation.

Scheduling your trip To set up your trip, MAS will ask for: the type of medical appointment that is being scheduled; the name of the doctor, nurse practitioner or physician assistant that you see on a regular basis or we may need the name of the medical provider you are going to see; the date and time of your appointment; the address or name of the facility where you need to go; and whether any special instructions or additional information necessary to get you to and from your medical appointment.

**Will Medicaid pay for long distance transportation out of town?**

MAS will arrange long distance trips out of town when medically necessary. Long distance trips out of town may take more time to arrange and need to be scheduled at least one week (7 days) in advance if possible so we have time to make travel arrangements for you.

**What forms are required for Medicaid Transportation?**

Verification of Transportation Abilities - is required to be on file with MAS for wheelchair, stretcher or ambulance transportation. This is a form your medical provider completes and you or your medical provider returns the form to MAS. Out of County Form – is a form that is completed when your medical care is not available within your common medical marketing area and you must travel a further distance for appropriate approved care.

**What is my Common Medical Marketing Area?**

Your common medical marketing area is the geographic location defined by the government that people routinely get their medical care from before travelling a further distance.

### **What are my responsibilities to use Medicaid transportation?**

All Medicaid transportation needs to be scheduled and approved by MAS prior to the trip occurring. All trips should be called in as far in advance as possible. You are responsible for being respectful, punctual and prepared for your ride when the transportation provider arrives. You must follow all New York State laws during transportation.

You should have your Medicaid Card with you when going to and from medical appointments. If you need to cancel a trip, please contact MAS as far in advance as possible. If you are travelling by private vehicle or public transportation you will need to have your medical provider sign forms that you were seen by a medical provider. If we provide you transportation out of town that requires an overnight stay you may also need to submit receipts for hotel stays, meals and other expenses.

### **What rates will I get reimbursed at if I drive myself or need to stay overnight?**

MAS will reimburse travel expenses using the Federal Government guidelines for travel reimbursement.

**Non-emergency medical transportation for people who are Medicaid recipients.**

### **Strengthening Families**

The Strengthening Families Program is an evidence-based prevention & learning program. Parents or caregivers and their child(ren) have the opportunity to build life skills, parenting skills, and training to strengthen parenting and family functioning. Courses are taught together in a 7 to 14 week group session. Each session begins with a free family dinner that includes informal family practice time and coaching. Following dinner, parents and children have a 1-hour breakout class followed by a 1-hour family class. This program allows you to meet other parents in a supportive environment and learn some parenting tools in a fun and interactive way. Families will learn how to communicate better with each other and spend time bonding

Open to Ages 12-18. FREE to families in both Columbia and Greene Counties. Runs from 5-7:30 every Tuesday starting February 4th and runs to April 15th. ### **Services Provided:**

#### **Syringe Access and Safer Smoking Supplies**

People who inject drugs can receive new, sterile syringes as well as the supplies necessary to engage in safer injection techniques. This service is completely free and anonymous. Project

Safe Point provides this service as a way to meet the health needs of those who inject drugs, who may be at-risk for HIV, Hepatitis C, and a host of other blood-borne infections as a result of injection use.

If for any reason you are unable to reach the Project Safe Point mobile unit during our scheduled hours, please contact 1-866-930-4999 to speak with staff and arrange time for a delivery.

### **Drug Checking**

Making sense of an unregulated drug supply. Helping to minimize the risks of taking unexpected substances. Illuminating current trends in the local drug supply. Identifying hot spots for overdose prevention.

### **Bridge Clinic-Low Barrier Access To Buprenorphine and Brixadi**

Not everyone is ready, willing or able to seek treatment for their use, but we are able to help at any time no matter what! If you or someone you care about wants to learn more about the kinds of treatment that are available where you live, wants to discuss past or current experiences with treatment, or needs help solving insurance or other barriers, contact us for more information. Don't get frustrated, Project Safe Point staff can work with you to get ready for treatment and make a referral for you. Visit our mobile unit at one of the syringe exchange locations, or call our office at (518) 449-3581 and ask to speak with one of our staff about treatment.

### **COAST - Coordinated Opioid and Stimulant Treatment**

24/7/365 Rapid access to resources for individuals who struggle with addiction. Access to a bridge script for MAT. Access to Medication and Treatment for Substance Use Disorder. Access to peer services. Access to Harm Reduction/Risk Reduction services. 1-866-518-4991

### **HIV and Hepatitis C Screening**

People who inject drugs are at a higher risk of these blood-borne diseases and should be screened regularly. Early treatment can make a big difference for long-term health, so it is important to know your status. Project Safe Point provides screening for HIV and Hepatitis C at all mobile locations (linked below), by appointment at our administrative offices, and at community events. We also visit local substance abuse treatment programs and other community organizations to provide screening. If there is a positive screen, we assist with arranging for confirmatory testing, help make a referral for treatment, and assist with any insurance or other barriers. Project Safe Point staff are available for anyone who is HIV and/or Hepatitis C positive to help with any needs you have.

### **Overdose Prevention**

Project Safe Point trains members of the community including drug users, family and friends of drug users, service providers, and others in how to recognize and respond to an Opioid overdose. Each trained participant will learn the following:

- How an overdose occurs
- The signs and symptoms of an overdose
- The main risk factors associated with overdose
- How to use naloxone (Narcan) to reverse the effects of an overdose

Any person who is interested can get trained to save a life. Check out our trainings call our office at (518) 449-3581 to request training. Project Safe Point staff have provided this training to individuals and small groups throughout the region, whether they be drug users, families, self-help groups, community agencies, task forces, or others.

Recovery Hike is a support group currently serving Columbia, Greene, Ulster, and Northern Dutchess counties. We aim to support mind, body and spiritual wellness utilizing the nurturing nature of environments, which surround our communities. All are welcome. RecoveryHike is going into its fourth year, and is now serving four counties in the Hudson Valley with two chapters. This past year included 2 hikes a month and their first campout event, all free to anyone. This coming year, they will be expanding their efforts to reach a larger audience, and broaden their activities for the year, to include more hikes, a trip to Howe's Caverns and the 2nd annual Campout. The Columbia/Greene Chapter meets every second saturday of the month at 10 am (locations vary) and the Ulster/Northern Dutchess chapter meets every third Saturday at 10 am (locations vary).

### Services Provided:

Refuge Recovery is a non-theistic addiction recovery program based on Buddhist principles, primarily utilizing meditation and mindfulness practices to address the root cause of addiction as repetitive craving, offering a path to recovery without requiring adherence to a specific religious belief system; anyone can participate, regardless of faith background.

Refuge Recovery members practice a daily recovery program that includes meetings, meditation and personal inventory, mentorship, retreat and service as integral components. The group atmosphere provides help from peers and offers an ongoing support network for all who wish to pursue and maintain an addiction free life.

Key points about Refuge Recovery:

Buddhist foundation:

Leverages teachings from the Buddha, including the Four Noble Truths and the Eightfold Path, to understand and manage addiction.

Focus on mindfulness:

Emphasizes daily meditation practices to cultivate awareness of cravings and triggers.

Non-theistic approach:

Does not require belief in a higher power, making it accessible to people of all faiths or no faith.

Community support:

Relies on group meetings and peer support to navigate recovery.

Personal inventory:

Encourages self-reflection to identify patterns and contributing factors to addiction.

Potential benefits:

May be particularly suitable for individuals who find traditional 12-step programs challenging due to their focus on a higher power.

### Services Provided:

#### Self Management and Recovery Training (SMART)

SMART Recovery is an evidenced-informed recovery method grounded in Rational Emotive Behavioral Therapy (REBT) and Cognitive Behavioral Therapy (CBT), that supports people with substance dependencies or problem behaviors to:

- Build and maintain motivation
- Cope with urges and cravings
- Manage thoughts, feelings and behaviors
- Live a balanced life

#### Our Principles

- Self-Management - People can manage their own behaviors
- Mutual Support - There is great value in connecting with and learning from peers with similar experience
- Choice - People choose their own goals, skills and tools.
- Evidence Led - All our programs are based on scientific evidence and we encourage their on-going evaluation
- Person Centred - People with lived experience are central in guiding what we do.

SMART Recovery was established in 1994, here in the USA, to meet the increasing demand of those seeking a secular and evidence-informed alternative to the widespread 12-Step addiction recovery program.

SMART Recovery is a fresh approach to addiction recovery. SMART stands for Self-Management and Recovery Training. This is more than an acronym: it is a transformative method of moving from addictive substances and negative behaviors to a life of positive self-regard and willingness to change.
