Instructions:

Please review the Community Health Improvement Planning Guidance for the required elements of the Community Health Improvement Plan (CHIP) and Community Service Plan (CSP): https://www.health.ny.gov/prevention/prevention_agenda/2025-2030/docs/letter_and_guidance.pdf.

- **Columns B & C:** Priorities and Objectives can be selected from the dropdown menus.

Please note: These objectives include statewide baseline and target measures and those selected should align with your local plan.

- **Column D:** Enter and cite the intervention you organization plans to implement to address the selected objective. Each intervention must be listed in a separate row. Use evidence-based interventions; if not available, best or promising practices.

- **Column E:** List any disparities the intervention addresses.

- **Column F:** Identify the specific metric or measure used to evaluate the intervention's implementation progress.
